

Access Control software WINGAEP

SPAZIO ITALIA
The specialist at your side

WINGAEP is a modular and scalable access control software that can be used to control pedestrian and vehicle access, from small single door installations, up to large multi-site installations.

Thanks to the module "8 hours" (included), WINGAEP can be employed also for Time & Attendance applications, processing directly the timesheet in case of basic requirements or exporting the clock-ins / clock-outs to a third party software if you require advanced Time & Attendance functions or the payroll processing.

KEY FEATURES

- Available in the main European languages
- Unlimited operator profiles
- Graphic maps management showing the status of the doors, panels, etc.
- Access management regulated by time zones and holidays
- Access management with Card + PIN
- Access management with Card + Card
- Access management with credit or points to be deducted
- Alarm system arm/disarm
- Integration with the automatic number plate recognition (ANPR) system READERPLATE
- Manages up to 255 client workstations
- Custom reports
- Data import/export in TXT, DBF, XLS and SQL (with external modules)
- Windows 8 ready
